

## The Industry Leader in Air Emissions Testing

## Capabilities ARI Environmental

ARI has provided industrial clients with expert air testing and reporting services since 1983. Our on-site project managers average over 10 years of experience, and have extensive knowledge of federal and state environmental permitting, testing and reporting requirements. Our qualified engineers and field technicians provide you with accurate, professional air pollution measurements, USEPA methods, and air sampling procedures. We also provide on-site diagnostics and troubleshooting services to ensure that the pollution control equipment will meet performance guarantees and compliance limits.

### ARI's Air Testing Services Include:

- Source Emissions Testing
- CEM Certifications
- Fugitive Leak Monitoring
- Leak Detection and Repair
- FEMS Databases
- Equipment Leak Estimates
- HRVOC Analysis
- Cooling Tower Strippable VOC Testing
- NSPS, RCRA, NESHAPS, SCOMI, SARA Programs
- Specialty Sampling Services
- OSHA Field Testing
- Emission Audits
- Control Equipment Studies
- Laboratory Analysis
- Air Permit Reviews
- QA/QC Programs

From project initiation and field testing, to laboratory analysis, quality assurance and final reporting, the ARI team is unsurpassed in providing consistently superior service and accurate results. When it comes to air quality assurance, you need to know you are in compliance. Our goal is to help you achieve 100% compliance.

### Some of the Industries We Serve Include:

- Oil & Gas Production
- Petrochemical
- Plastics
- Pharmaceutical Manufacturing
- Power Generation
- Gas Pipelines
- Steel Manufacturing
- Cement Production
- Hazardous Waste Combustion
- General Manufacturing
- Automobile Manufacturing
- Pollution Equipment Firms
- Printing and Coating Operations
- Hospital Incinerators
- Ethanol Production
- Food Processing
- Asphalt & Aggregate Plants
- Engineering & Permitting Firms
